

After 3,000 deaths, isn't it about time to *finally* listen to government whistleblowers. Or, do we continue the years of *déjà vu* consequences!

Former federal aviation safety agent and several dozen government agents explain why the present cover-up of the primary blame for the success of 19 hijackers insures that the events of 9-11 will continue to be “blips” in a long line of preventable aviation disasters and other unpublicized tragedies.

The September 11 aircraft hijackings were made possible by unpublicized hardcore misconduct in government offices. Blaming 9-11 on “intelligence failure” diverts attention from the real blame.

Consider:

- Hijackers have been seizing airliners for the past 40 years; federal air safety inspectors have reported the simple and inexpensive preventative measures for years; federal aviation offices had the responsibility to order preventive measures that were never taken.
- The scandal and the secrets revealing why 9-11 occurred *starts* within the government air safety offices, and then expands into every other branch of government.
- Discover why a federal air safety agent was *forced* to act as an independent prosecutor, why he filed federal lawsuits against the FAA and NTSB under the federal crime reporting statute, and the corrupt misuse of the Justice Department and the courts to block his reports that insured the success of 19 hijackers.
- Discover the lawsuits filed by that agent against members of Congress and federal judges, charging obstruction of justice related to corruption in the government's air safety and other offices.
- Discover why those in control of the “system” will never allow this information to be released to the people.
- Discover how federal judges blocked the reporting of criminal activities that made the hijackings and tragedies of 9-11 possible.
- Discover Trojan horse corruption in the three branches of government that constitute a greater threat and source of continuing harm to Americans than posed by terrorists from outside the United States.

For those who want to know, and realize that it is not patriotic to cover up for corruption that made 9-11 possible, the following information is available:
