

Deadly Blowback Effects of Covert Operations by CIA and White House Politicians and their Roles In 9/11 and Iraq

Americans and America continue to suffer great harm from the blowback effect of covert operations by the CIA and White House politicians, including the blowback effects responsible for the events of 9/11 and invasion of Iraq.

These matters are detailed and documented in the book written by former federal agent Rodney Stich, with input from dozens of former government agents: ***Blowback, 9/11, Iraq, Lies and Cover-ups*** (Internet downloadable format in MS Word or Adobe pdf). The contents include, for instance:

- The four areas of blame for the events of 9/11, including the two secondary areas (so-called intelligence failures and failures to act on known intelligence), and the two primary areas of blame that are *not being addressed*, and the cover-ups of such misconduct.
- Cover-up of the two primary areas of blame by the 9/11 commission.
- Explosive lawsuit filed in U.S. district court, New York City (03 CV 7405) and in the court of appeals (03-6244), by former federal agent, where most of the 9/11 cases have been filed. Documented evidence of criminal cover-ups by federal judges and Justice Department lawyers, as they repeatedly blocked a former federal agent from reporting the criminal activities that played key roles in the events of 9/11.
- CIA covert actions in Afghanistan, Iran, and Iraq, and the blowback consequences that are today imperiling the United States and responsible for many deaths.
- Covert White House conduct that funded, armed, and made possible Iraq's military buildup, making possible today's predicament in the Middle East.
- Misconduct by Justice Department officials that made possible the 1993 bombing of the World Trade Center.
- The cover-up role of certain media personnel that make possible the catastrophic blowback consequences, some of whom are on the CIA's payroll.
- History of cover-ups and retaliation against former federal agents to block their exposure of widespread corruption in government offices.
