

Discover the Role Played By Federal Judges That Insured the Success of the September 11 Hijackers

Former federal agents reveal *documented judicial misconduct* by federal judges and Justice Department lawyers blocking reports of hardcore corrupt activities in key government offices.

Discover how federal judges have:

- Blocked federal agents from reporting corruption in government offices, resulting in great harm upon national interests, national security, and millions of people.
- Insured the success of the September 11 hijackers by repeatedly blocking federal agents from reporting corrupt conditions in the federal air safety agencies.
- Terminated the legal rights, protections, and defenses of whistleblowers while cooperating in a scheme to obstruct justice.
- Retaliated against a dedicated former federal air safety inspector after he sought to report corrupt activities to a federal court under the federal crime reporting statute (Title 18 U.S.C. § 4).
- Emasculated the protections in laws and the Constitution as part of the efforts to silence government whistleblowers.
- Engaged in a corrupt scheme with a CIA-front law firm to prevent the exposure of criminal activities in key government offices.
- Obstructed justice, blocking the reports of tragedy-related corrupt activities in government offices, including the FAA, NTSB, CIA, Justice Department, and the federal courts.
