- Drug money going to both political parties, giving Democrats and Republicans reasons to continue the status quo.
- That simultaneous with drugging America, an army of government informants, agents and prosecutors prey upon America's men and women, often fraudulently charging innocent people with drug-related offenses, and often using perjured testimony.
- How to minimize the chances of being falsely charged with a drug offense, despite your innocence.
- Learn who profits from the fraud and misery inflicted upon the American people.
- Actual stories of people operating secret CIA airlines and financial operations describing the drug-related activities, and pilots flying drugs for the CIA, some of whom were house guests of Colombian drug lords.
- How Justice Department personnel protect the CIA and major drug organizations bringing tons of drugs into the United States, while prosecuting men and women with peanut quantity of drugs or on no-drug drug conspiracy fabrications.
- The grave implications to you and the nation caused by these activities.
- What you can do to repeal the mandatory minimum sentence statutes, halt the corrupt misuse of the conspiracy and forfeiture statutes, and bring about the release of men and women with grotesque prison sentences.
