

Unpublicized Trojan-horse-type Corruption Inflicts Far Greater Harm on U.S. Than Foreign Terrorists

An unprecedented opportunity to learn what a coalition of former government agents (FBI, CIA, DEA, FAA, Customs, and others) discovered about decades of continuing Trojan-horse-like corruption that is a greater threat, and continues to inflict greater harm, upon the people of the United States and upon national security, than foreign terrorists. The insider information in *Defrauding America* and *Drugging America* provides a literal college education on how arrogant and corrupt people in the three branches of government are subverting a great country from within. Described within the pages are a series of corrupt activities harming national security and the American people. For instance:

- ◆ Deep-seated corruption in the government's aviation safety offices responsible for decades of preventable air disasters—including 9-11.
- ◆ Decades of drug trafficking into the United States involving personnel of the CIA and other government entities, and the cover-ups by White House and other politicians.
- ◆ Secret funding and development of Iraq's WMD, and its blowback.
- ◆ Widespread judicial corruption, including the bankruptcy courts.
- ◆ Series of corrupt activities, including October Surprise, Inslaw, funding foreign terrorists, HUD, BNI, savings and loans, and much more.
- ◆ Corrupt culture in the FBI and Justice Department.
- ◆ Media control by the CIA that conceals this Trojan horse corruption.
- ◆ Secret CIA airlines and other covert CIA operations.
- ◆ Innocent men and women falsely charged and prosecuted, including elderly widows, and sent to prison.
- ◆ America's political prisoners, including government agents who expose corrupt people in government positions, who are then falsely charged and sent to prison to discredit and silence them.
- ◆ Symbiotic complicity by members of Congress, federal judges, and media personnel—some on the secret payroll of the CIA.
- ◆ How people in control of the system keep this information from the people.
- ◆ Why people in control of the system will block any meaningful investigation of these matters—including 9-11, and how public indifference makes it all possible.

The author, Rodney Stich, is a former federal aviation safety agent, airline captain, veteran radio-TV guest on over 3,000 shows, is dedicated to informing the public of the greatest Trojan-horse-type of threat the nation and its people have ever faced.
