

# Would You Believe America is Under Attack From Within--if several dozen government insiders told you of--

- Fifty years of CIA drugging the American People.
- CIA drug smuggling with organized crime elements.
- Cover-up of these treasonous and subversive acts by members of Congress, Justice Department personnel, and federal judges.
- Routine practice of false criminal charges against America's men and women by Justice Department personnel and government informants.
- Drug money going to both political parties.
- Why putting thousands of America's men and women in prison will continue—unless a few courageous Americans wake up and show a little courage.
- And much more.

These and many other crimes against you and other Americans are revealed in the book, *Drugging America*, written by a former government agent and crusader with the help of dozens of government insiders and former drug smugglers. The following are a few of the comments from readers of "Drugging America":

"Allow me to congratulate you on the best book I have ever read. Every chapter is informative and understandable and I would make it required reading to my friends."

"Thank you for having the courage to make this book available to the public. It is so comforting to know that there are still great American heroes in this wonderful United States of America. Thanks to good Americans like yourself."

"You will never know the enjoyment we have received from reading your book, *Drugging America, A Trojan Horse*, and how this book has made such an impression on me."

"In my estimation you're the author of the century in the United States. You paint in the devastation, the anguish, grief, sorrows and distresses into the picture. You cause the reader to feel these, too."

"You are to be greatly commended for bringing this matter to the attention of the public. There are many people here that love you and your work....I just wish every American citizen could read your books. ... Thanks for caring about our country and the people in it. Someone has to stand up for God and mankind. ... We read the book everyday and it gets better every time we turn a page. Keep up the good work."

"We want to compliment you on the research you have done with *Drugging America*. Beside the quality of writing, the printing by your press is excellent. I thought the way you laid out your work graphically was outstanding."

"In my opinion you deserve the highest commendation this country can bestow on a man. Instead, our subversive and corrupt government has tried to crucify you."

"God bless you sir for the wonderful work that you are doing. I think that you are a modern day American hero."
