Solicitor General of the United States  
Room 5614  
950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

To Solicitor General:

Enclosed is my petition for writ of certiorari and writ of mandamus to the U.S. Supreme Court. Among the issues raised in the petition that should be of concern to the Solicitor General, are:

- My repeated attempts to report criminal activities in certain government offices, under 18 U.S.C. § 4, that I and a group of other former government agents discovered, have been repeatedly blocked by federal judges. Among the areas of misconduct of which I have knowledge and evidence would be that in the government's aviation safety offices that existed for years—along with a history of preventable airline disasters. This is the deep-seated culture that is one of the several *primary* areas of blame that is being sequestered and enabled the hijackings of four airliners on 9/11. Those aviation disasters were only one day's consequences in only one of the areas affected by the corrupt, criminal, and subversive activities that we discovered over a period of years.
- The criminal misuse of the courts by federal judges as they:
  - Repeatedly blocked me and other present and former government agents from reporting criminal activities to a federal judge under 18 U.S.C. § 4.
  - Rendered a series of unlawful and unconstitutional orders that retaliated against me for attempting to make these reports, which inflicted grave personal and financial harm upon me, and combining these judicial orders terminating the federal defenses against such wrongful orders, and combined with other efforts to halt the exposure of these criminal and subversive activities. Even the Mafia doesn't have it so good, where they can inflict harm upon someone and then block government defenses needed to protect the victim.

I presume the cover-up by the solicitor general will continue as before, one of many cowards who played a role in making the hijackings of 9/11 possible. And I presume the Supreme Court justices will continue *their* cover-ups.

Sincerely,

Rodney Stich
