Mr. Jesus Reyes Heroles, Mexican Ambassador

Mexican Embassy

1911 Pennsylvania Avenue, NW

Washington, DC 20006 Certified Z 772 858 917

Reference: Reporting crimes against the Mexican government and the Mexican people.

Dear Mr. Reyes:

This letter puts the Mexican government on notice of major crimes against the government and the people of Mexico.

During my continuing investigation, starting as a federal investigator and then as a private investigator, I have acquired a great amount of evidence concerning criminal activities by agents of the United States government. In one instance, information was provided to me by a former agent of the U.S. Immigration and Naturalization Service (INS) that had serious international implications, which should cause great concern to the government and the people of Mexico:

- An agent of the U.S. government (Drug Enforcement Administration) was reported in an official report of the Immigration and Naturalization Service (INS) to be coordinating, in Mexico, a large drug smuggling operation at a remote mountainous airstrip a couple of hours driving time from Los Mochis.
- Agent of the U.S. government reportedly murdered a Mexican national at that airstrip when the cargo handler discovered the identify of the U.S. government agent.
- The murder of a Mexican journalist in Mexico, shortly after he started investigating these matters, was probably due to an attempt to cover up for the involvement of U.S. agents in these crimes against Mexico.
- Agents of several U.S. government agencies aided and abetted these crimes against Mexico, covered up for them, and then retaliated against the INS agent who filed the report that was then hidden or destroyed. These agents were from the U.S. Department of Justice, Immigration and Naturalization Service, Drug Enforcement Administration, U.S. attorney.
- The drug smuggling operation involving major segments of the U.S. government were also directed against the people of the United States, a fact that has been proven by the evidence I have been provided by several dozen former federal agents and operatives.
- The murder and drug trafficking, implicating agents of the U.S. government, are in character with what I, a former federal agent, and a coalition of several dozen U.S. agents and deep-cover operatives have discovered during the past 10 years. The cover-ups, the obstruction of justice,

the continuation of the criminal activities, are documented standard operating procedures by people holding key positions in the government of the United States.

Prior Cover-up by Mexican Officials

Part of this information had been sent by the INS agent to various Mexican agencies, including the Mexican consul in Texas. There was no response. I also sent information to the Mexican consul in San Francisco, and there was no response. It appears that Mexican officials at various levels are protecting criminal activities by agents of the U.S. government that are inflicting great harm upon Mexico and the Mexican people. Obviously, this has monumental implications.

My Credibility

I am a former inspector and investigator in the government of the United States, who discovered during the past 30 years patterns of documented corrupt practices involving federal officials in all three branches of government. Over two dozen government agents have provided me with additional court-admissible evidence during the past ten years.

Part of this government corruption, and the well-orchestrated cover-up and obstruction of justice, is detailed and documented in the books, *Defrauding America* and *Unfriendly Skies*, and referred to in the Internet web sites, <http://www.defraudingamerica.com>; <http://www.ciadrugs.com>; and <http://www.unfriendlyskies.com>.

Major Crimes Against Mexico and Its People

The murder of a Mexican national, on Mexican territory, by an agent of the U.S. government, to cover up for a criminal drug trafficking operation conducted by a U.S. agent on Mexican soil, has serious implications for Mexico, its people. It appears to be another of dozens of operations in which the sovereignty of another country is invaded by people in control of the United States government.

My primary interest in providing this information to Mexican officials is to expose the corruption by U.S. government officials that are inflicting great harm upon many innocent people.

I am making copies of this letter available to others, and a copy will be found on my various web sites. Further cover-ups will expand the duplicitous conduct of others.

Sincerely,

Rodney Stich
