Dear Sir:

You and I have been involved with hard-core government corruption for 25 years. My role was as a federal investigator attempting to report escalating federal crimes to you, starting out with the hard-core air safety and criminal violations related to a series of air disasters. Then it escalated to Justice Department corruption; Chapter 11 corruption; judicial corruption; and then on to October Surprise. Your reaction was a constant pattern of coverup, misprision of felonies, obstruction of justice, accessory after the fact, and the related crimes. Here we are, two decades later, and you have to obstruct justice in the scandals that I brought to your attention during the past couple of years.

It would be reasonable to think that if you did not engage in the initial obstruction of justice, and the constitutional and statutory checks and balances existed, the same parties would not have been allowed to escalate to the many other crimes that are described in the attached declarations/transcripts. Three years ago I brought to your attention the Chapter 11 judicial corruption in which the statutory protections of Chapter 11 and Chapter 11 courts were turned into a major fund-raiser, inflicting unlawful and criminal acts upon those who exercised the protections, and then found themselves stripped of all assets. Often times these victims were retired people who were left to face their remaining lives with no assets. You made it all possible, by your felony coverup.

You haven't done very well in the savings and loan mess. You have covered up for the major involvement of CIA factions in stripping America of billions of dollars to fund covert domestic and overseas actions. The attached declarations gives the names, the addresses, the method of operation, of these covert CIA financial institutions, whose sole function in generating funds for CIA activities was to make sham loans that were never intended to be repaid. You kept the lid on the scandal, withholding from the public that Silverado, Aurora Bank, National Brokerage Companies, Red Hill Savings and Loan, Hill Financial, were a few of the dozens of such CIA proprietaries that played a major role in the greatest financial debacle that has ever been inflicted upon the American public.

The media's felony coverup is protecting the likes of you and the major of members in Congress. But if the scandal ever gets out, the enclosed declarations/transcripts insures that you knew about the ongoing crimes, and you protected the sordid bunch of legal and judicial thugs and others that played such a key role in defrauding America. This letter and the 30-plus pages of declarations/transcripts by Captain Gunther Russbacher, describing more of the sordid details of the October Surprise conspiracy, and describing other criminal enterprises, including the following:

1. **October Surprise.** The declarations include the dates of the secret meetings; where they *actually* occurred; who was present; who were the participants; how did they get to the meeting sites; when did the arms starting flowing following the secret meetings; how government documents were forged to steal the weapons from US military warehouses; the route of shipment; the part Israel played in the treasonous and subversive acts against the United States; the part played by Pepsico International Headquarters; and more.

2. **CIA looting of America's financial institutions, and particularly the savings and loans.** The declarations include the names of covert CIA corporations formed for the sole purpose of looting American's financial corporations to fund covert CIA domestic and international activities; how the looting occurred; part played by cooperating/corrupt federal judges, federal trustees, covert Justice Department and CIA proprietary law firms to cover up for the schemes; how the Keating and other corrupt lending institutions contributed "protection" money to the secret CIA proprietary corporations; relationship between the looting of America and specific arm purchases; how former CIA Director, George Bush, had a son, Neil Bush, as Director, in the covert lending institution, Silverado, and how the looting that occurred there duplicated the looting of other CIA lending institutions and CIA proprietaries; and much more. These criminal activities are continuing to this date, with the CIA proprietaries assuming other names.

3. **Large scale drug smuggling into the United States, naming key CIA drug-transshipment points.** The declarations name the parties knowledgeable in the drug smuggling, the drug transshipment points, and other details.

4. **Criminal misuse of Chapter 11 courts to cover up for the CIA's looting of America's financial institutions.** The declarations give the names of federal officers of the court, how the racketeering activities are perpetrated, the part played by federal judges, federal trustees, Justice Department attorneys/officials,¹ covert CIA and Justice Department law firms.

5. **Criminal misuse of Chapter 11 courts as a major funding source by officers of the court,** preying upon, and financially destroying, thousands of people who exercise the statutory protections of Chapter 11. They then are financially destroyed by a pattern of criminal activities, violations of Chapter 11 statutes, and violation of constitutional protections, all a part of the vicious racketeering enterprise that this Court has protected year after year! The federal officers of the Court that openly engage in this major fund-raising racketeering enterprise, and their pattern of civil, constitutional and criminal violations, have been repeatedly brought to your attention. Instead of meeting responsibilities of your office and under federal crime statutes, you both joined the conspirators by your acts. This aiding of the criminal activities inflicted great harms upon me, upon thousands of others, and protected the CIA-related looting of the nation's savings and loans (which continue to this day).

6. **Key role played in all aspects of these high-crime activities by federal judges, up to and including the Justices of the U.S. Supreme Court.** Judge Laurence Silberman was rewarded with a federal judgeship and then a Justice position after his role in the treasonous October Surprise. David Levi was rewarded with a federal judge position after his role in felony coverup and felony persecution of an informant/whistleblower.² Ninth Circuit Chapter 11 courts are riddled with judges implicated in the CIA looting of America's lending institutions and in using Chapter 11 as a major funding vehicle.

ADDITIONAL SUPPORT FOR THESE CHARGES

Evidence supporting the criminal activities commence with the declarations of Captain Gunther Russbacher;³ my declarations as a former federal investigator; the secret July 11, 1990 Justice Department report previously submitted to Congress and to you; my detailed federal complaints; investigative media articles and exposé books on the subjects, leaves no doubt that the criminal activities exist. There certainly is sufficient basis for any member of Congress to conduct an immediate and open investigation; especially in light of the gravity of the offenses and consequences to the United States. The CIA looting of America's lending institutions will very probably plunge the nation into a depression, and will certainly adversely affect America's financial standing in the world community. Yet, you continue to protect those that are inflicting such dastardly harms upon your own constituents!

SIGNIFICANCE

We have here evidence of high treason, subversive activities, massive harms inflicted upon the

United States, and you have the audacity to engage in two-bit obstruction of justice. The numerous crimes involved in the October Surprise conspiracy shows that the President of the United States acquired his office through treasonous and subversive acts. The Central Intelligence Agency over which he now presides and for which he was a former Director has engaged in high crimes against the United States. The CIA sabotaged the United States when it conspired with private citizens, with disloyal federal employees, with the State of Israel, to sabotage the release of the hostages, stole US arms and munitions from US warehouses in Europe, played a major role in bringing about the nation's worst financial debacle which may very probably cause a major depression and destroy America's declining leadership in the world. The CIA is smuggling drugs into the United States, further destroying the very fiber of our society.

As if these crimes of high treason aren't enough, we have the entire federal judiciary engaging in criminal enterprises using Chapter 11 courts for a major funding vehicle, looting the assets of widows and others who are duped into exercising Chapter 11 statutory protections; we have federal judges aiding and abetting the crimes of high treason; we have federal judges sitting in place as rewards for their part in the treasonous and subversive actions. We have federal judges/justices persecuting whistleblowers, concerned citizens, and we have ongoing killings of these patriots, while the Supreme Court Justices provide the protective cloak for the activities undermining our form of government.

Your responsibilities, and that of the entire Senate, includes the following:

1. Immediately publicize Russbacher's role, and mine, to dampen the felony persecution against us by Justice Department attorneys/officials and federal judges, who are deeply implicated in the scandals involving your legal compatriots.

2. Halt the deportation proceedings for Russbacher. Once he is out of the country, the key witness is lost. (How lucky can you be!) He has also been informed that there are several contracts out for his death, which is understandable in light of the scandals that he can expose.

3. Bring about multiple investigations of each of the criminal areas, including an open congressional investigation, unlike the prior congressional coverups; and special prosecutors/investigative teams that minimize the chance of a coverup. Promptly obtain testimony from Russbacher, myself, and other informants that we know can provide inside information.

4. Get a special bill in Congress to reimburse Russbacher, and myself, for the huge financial losses we suffered, as members of Congress engaged in felony coverups while we did their exposure activities for them.

Informants, whistleblowers, concerned citizens, have been either killed or are being persecuted to protect the sob's implicated in these crimes, including the sob's keeping the lid on it. And the American public is being horribly mangled by both groups.

Sincerely,

Rodney Stich

ENDNOTES

1. As in Inslaw.

2. US v. Stich, C.D. Cal. No. CR 87-0124 RAR.

3. Captain Russbacher's declarations describe, inter alia:

A. His presence at the late July 1980 meeting in Spain, with William Casey, who may have masterminded this treasonous conduct. This meeting was not in Madrid, as rumors suggest, but rather, in Barcelona at the PepsiCo International Headquarters building.

B. Russbacher's presence was to arrange for the procurement of military equipment and munitions, which he was ordered to do.

C. Russbacher's subsequent activities in obtaining the military equipment and munitions from US warehouses in Austria, Germany, and Italy, and then shipping them through Budapest, Yugoslavia, Hungary, Greece, on to Cyprus, and then to Iran via Israel.

D. How the arms and munitions were stolen from US warehouses via forged government documents, and forged end-user certificates, with the authentic end-user certificates replacing the forged government documents when the items reached Cyprus.

E. The theft of the US arms were facilitated by CIA personnel or moles at the US arms warehouses.

F. In addition to the theft of US arms, military equipment was purchased in Switzerland, using money provided by the Reagan-Bush team.

G. The significant date that the weapons started to flow, following the July 1980 Barcelona meeting; September 1980. This was long before Casey held any government office. The CIA, aided and abetted by private citizens and renegade federal employees such as Robert McFarlane and others, had executed a coup d'etat against the United States.

H. Russbacher was command pilot on the BAC 111 that went from Washington, National Airport, to Andrews Airforce Base, to New York's Laganardia Airport, to Gander, and then on to Paris. The passengers who he saw in the cabin when he was over the North Atlantic included William Casey, Robert Gates, Donald Gregg, George Bush, and others.

I. Russbacher, one of the CIA's few SR-71 pilots, flew George Bush back from Paris in an SR-71, landing at McGuire Airforce Base, arriving at McGuire at 2 a.m. in the morning. The exact dates cannot be remembered, but the departure from Washington National was either October 17 or October 18, 1980.

J. The key role played by Israel in these treasonous events that sabotaged the efforts by the elected and official government of the United States, delaying the release of the 52 American hostages; bringing about the coup d'etat that occurred; and subjecting the United States to blackmail by various countries, by threatening to expose the Reagan-Bush activities.

K. Key role played by CIA in savings and loan debacle. Names of covert CIA corporations formed for the sole purpose of looting American's financial corporations to fund covert CIA domestic and international activities; how the looting occurred; part played by cooperating/corrupt federal judges, federal trustees, covert Justice Department and CIA proprietary law firms to cover up for the schemes; how the Keating and other corrupt lending institutions contributed "protection" money to the secret CIA proprietary corporations; relationship between the looting of America and specific arm purchases; how former CIA Director, George Bush, had a son, Neil Bush, as Director, in the covert

lending institution, Silverado, and how the looting that occurred there duplicated the looting of other CIA lending institutions and CIA proprietaries; and much more.

I. Large scale drug smuggling into the United States, naming key CIA drug-transshipment points.

M. Criminal misuse of Chapter 11 courts to cover up for the CIA's looting of America's financial institutions, through the corrupt acts of federal judges, federal trustees, Justice Department attorneys/officials, covert CIA and Justice Department law firms, and the aiding and abetting of every known federal court.

N. Criminal misuse of Chapter 11 courts as a major funding source by the same parties, preying upon thousands of American citizens who naively exercise the statutory and constitutional protections of Chapter 11, unaware of the hard-core corruption by the federal officers of the court. I can also testify to that from personal experience. It is described in the 656-page exposé book, *The Real Unfriendly Skies—Saga of Corruption*. It is further described in some of my federal court filings, including the filing in the U.S. District Court, N.D. Ill. No. 90-C-2396, and other filings in the District of Columbia and in the Southern District of New York.

O. Part played by CIA and Justice Department in steal the Inslam software and its use throughout the world.

P. Rewards of federal judgeships to those playing key roles in the treasonous, subversive activities, including Laurence Silberman, who played a key role in the October Surprise conspiracy; David Levi who played a key role in obstruction of justice and felony persecution of informants; and others.

Q. Hard-core air safety and criminal violations related to a series of fatal airline crashes, which I discovered and reported while I was a federal air safety investigator, holding the authority to make such determinations. The facts relating to this deeply ingrained pattern of corruption are stated in *Unfriendly Skies* and in numerous federal complaints, each of which had been unlawfully dismissed through the coordinated actions of Justice Department attorneys and federal judges/justices.

R. Key role played in all aspects of these high-crime activities by federal judges. Judge Laurence Silberman was rewarded with a federal judgeship and then a Justice position after his role in the treasonous October Surprise. David Levi was rewarded with a federal judge position after his role in felony coverup and felony persecution of an informant/whistleblower. Ninth Circuit Chapter 11 courts are riddled with judges implicated in the CIA looting of America's lending institutions and in using Chapter 11 as a major funding vehicle.

S. Killings, mysterious deaths, persecution by Justice Department attorneys/officials and federal judges, of whistleblowers, informants, concerned citizens, who threaten the officials in all three branches of the federal government with exposure of these crimes.
