U.S. Senate Committee on Foreign Relations; Senators Frank Lautenberg,
Charles Schumer; Bob Menendez; Kirsten Gillibrand; Richard Lugar:
Washington, DC 20510 (Via fax) with fax copies to those listed at the end.

Ref: Your Senate Foreign Relations Committee site, on September 30, 2010, relating to the Lockerbie matter, continues to obstruct justice and continues to aid and abet the federal crimes committed in the Lockerbie prosecution, and the series of catastrophic consequences arising from that corrupt culture.

To the above Recipients:

I am a highly qualified former federal agent and the head of a collation* of other former government agents and insiders. I have previously sent to each of you, and those receiving copies of this fax, the large amount of prima facie evidence showing the series of criminal acts that resulted in the blame for 270 deaths, mostly Americans, being shifted from Iran and the Syrian-based PFLP group actually responsible for placing the bomb on Pan Am Flight 103 to Libya and the so-called Libyan "bomber," al Megrahi.

The evidence shows that the bomb was placed on Pan Am because of the prior "terrorist" downing of an Iranian airliner by the U.S. navy ship, U.S.S. Vincennes. That airliner had shortly before taken off from Abadan, Iran and was climbing on a civil airway with 290 people on board for Jeddah.¹ The murder of those people was treated with contempt by President Ronald Reagan, and the American public celebrated the following Fourth of July while the people of Iran mourned.

Department of Defense reports and considerable other evidence showed the true facts, but President George H.W. Bush needed the cooperation of Iran and Syria in the coalition to attack Iraq following Iraq's invasion of Kuwait. Therefore, for political reasons, a massive hoax had to be played upon the memories of those that perished on Pan Am Flight 103 that required a series of criminal acts by employees of the FBI and other Department of Justice offices. Members of Congress, as shown by my evidence, aided and abetted the scheme by covering. Felonies are committed by anyone that knows of a federal crime and who either fails to report it, or act upon it, or aids and abets it. Under the federal crime reporting statute, Title 18 U.S.C. § 4, I have a responsibility to report a federal crime to any government personnel—including members of Congress—and I hereby, *again*, make such report (as I and a group of other former federal agents have been doing for years—encountering repeated cover-ups, that enabled to occur many of the nation's most tragic events.

The prima facie evidence that I brought previously to your attention, with further details at one or my Internet sites,* showed that some of the criminal acts consisted of the following:

- The FBI-DOJ personnel paid \$3 million to a small Malta shopkeeper and his brother to falsely testify about the identity of the purchaser of children's clothes allegedly found in the suitcase containing the

¹ As an airline captain, I had often taken off from that same airport on the same civil airway with plane loads of Muslim pilgrims, going to the holy cities of Mecca and Medina.

alleged bomb, which was allegedly ignited by the planted timer fragment.

- FBI-DOJ personnel planted bogus evidence at the crash scene to shift blame from the actual murderers to falsely charge Libya. That planted evidence was a half-thumb-nail-size timer fragment found in a muddy field miles from the main wreckage, months after the bombing event. (That “evidence” was acquired from a former employee of the manufacturer.)
- FBI-DOJ personnel paid a discredited CIA informant over \$1 million to provide false testimony about the identity of two Libyans that allegedly put an unaccompanied bomb-carrying suitcase on a flight departing Malta, which was allegedly transferred to another aircraft at Frankfurt, and then transferred to Pan Am Flight 103 at London’s Heathrow Airport. That scenario required that the unaccompanied suitcase pass undetected through five security check points.
- FBI-DOJ personnel offered \$4 million to the owner of the company that produced the timer mechanism to provide perjured testimony—who refused to become implicated in the criminal scheme.
- FBI-DOJ personnel falsely charged two Libyans with the murder of 270 people, while covering up for the Syrian-based group that committed the murders under contract with Iran to avenge the U.S. Navy shooting down of an Iranian airliner that killed 290 people.
- The sworn affidavit by the former employee for the Swiss company stating that he gave the half-thumb-nail-size timer mechanism to FBI agents, months after the bombing, which was then planted in a muddy field miles from the main wreckage, miraculously discovered and retrieved, and then represented as the triggering mechanism for the bomb. That sequence was then used to falsely charge Libya with the murder of 270 people, claiming that the timer was sold by a Swiss company to Libya.
- The FBI forensic expert who testified about the timer fragment was later fired for producing false forensic reports.
- The sworn affidavit by the co-owner of the Swiss company that produced the timer, stating that (a) the timer presented during the Lockerbie trial was not the type of timer sold to Libya; (b) that he had been offered \$4 million by FBI agents to falsely testify that the timer shown to him was sold to Libya. (That occurred before he learned that a former employee had given a timer fragment to FBI agents).

In addition to the criminal acts by FBI-DOJ employees, the scheme was aided and abetted in Scotland in the following manner:

- Scottish judges. Despite the fact that the timer fragment was the *only evidence* used to link Libya to the bombing, during the trial, the Lockerbie judges blocked the co-owner of the small Swiss Company from providing testimony that the timer was not one sold to Libya. That obstruction of justice tactic was repeated numerous times by the Scottish trial and appellate judges.
- Small-town Scottish police, under guidance by FBI-DOJ personnel, continued the scheme orchestrated by FBI-DOJ personnel. After the trial, Scottish investigators reported planting of evidence and other tactics to support the original scheme concocted by FBI-DOJ personnel.
- The dozens of reports by Professor Hans Koehler, the representative appointed by the United Nations Security Council to monitor the Lockerbie bombing trial and appeal procedures, detailed the gross irregularities, absence of evidence, and other misconduct.
- The reports by Professor Robert Black, Edinburgh University, the architect of the Lockerbie trial at Camp Zeist in the Netherlands, reported the gross irregularities during the investigation, prosecution, trial, and appeal proceedings.
- The hundreds of British and Scottish media reports providing details of the massive misconduct and obstruction of justice.
- The report in a multi-page Department of Defense document accurately identifying the Syrian-based

PFLP group and Iran as the perpetrators of the Lockerbie bombing. Excerpts from that report is at the Lockerbie site and also in the documentary book, “*Lockerbie to 9/11: Massive Fraud and Consequences*” and also in the fifth edition of the book that is now called, *History of Aviation Disasters: 1950 to 9/11*.

Further Evidence Supporting These Statements

Sampling of locations for supporting evidence:

- www.defraudingamerica.com/lockerbie_index.html.
- The book, *History of Aviation Disasters: 1950 to 9/11*.
- The book, *Crimes of the FBI-DOJ, Mafia, and al Qaeda*.
- Appeal file of the Libyan falsely charged for murdering 270 people on Flight 103.
- Hundreds of British and Scottish media reports.

Why U.S. Politicians Will Never Conduct a Hearing on These Matters

For 40 years, this type of information that preceded a continuing series of national tragedies, deadly events, some catastrophic, have been brought to the attention of members of Congress, who in every single instance, covered up. These were obstruction of justice crimes that enabled to occur a series of catastrophic events that threatens the nation to this day. Copies of some of these notices can be found at www.defraudingamerica.com/letter_list_index.html.

When I, as a federal agent, sought to report to federal judges the criminal activities responsible for and associated with a series of major aviation disasters occurring in my immediate area of federal safety responsibilities—that also played major and enabling roles in the 9/11 hijackings, corrupt federal personnel—with many people watching—charged me with criminal contempt of court and then corruptly stripped me of the \$10 million in assets that funded my efforts to expose crimes against the United States.

Among the pathetic consequence were the women and others jumping to their deaths from the World Trade Center on September 11, 2001. That widespread culture represents the depths to which the United States has sunk—as you will undoubtedly continue to flourish!

Despite all this, you have the audacity to continue to hound al Megrahi, the victim of U.S. corruption—and falsely claim concern for justice and the victims of the Lockerbie bombing. You refer to the FBI-DOJ employees that engaged in this sordid hoax, either directly or through cover-ups, as dedicated employees!

Sincerely,

Rodney Stich
