Senator Joseph Lieberman, Chairman
Senate Homeland Security Committee
United States Senate
Washington, DC 20510 FAX: 202.224.9750

Ref: Putting you on notice—again—of major misconduct that continues to enable a continuing series of successful terrorist attacks.

To Senator Lieberman:

The enormous amount of attention to the intelligence failures relating to the planned bombing of Northwest Airlines Flight 253 from Amsterdam to Detroit overlooks far more serious problems that have made possible a series of successful terrorist attacks against major U.S. targets during the last decade.

I brought to your attention in one of my prior letter, dated May 22, 2002, information on corruption that I initially discovered as an FAA inspector that played the most direct role in enabling the terrorists to hijack four airliners on 9/11. In *this* letter, I bring *additional* evidence to your attention that I acquired since that time that made possible these prior terrorist successes, and which remains in place, enabling more successful preventative terrorist attacks.

Among the serious misconduct, criminal acts that had enabling roles in the 9/11 hijackings include the following:

- Cover-up of advance information on several of the worst terrorist attacks were high-level Department of Justice personnel. Their cover-up was perpetrated to prevent exposure of murders involving a key FBI supervisor in the New York City offices and to protect other DOJ personnel who knew of these murders and covered up for the crimes. That cover-up required withholding advance information on several planned terrorist attacks from government entities that could have prevented the success of those attacks.
- The advance information on the planned terrorist attacks was provided to FBI agents in the New York City offices during an 11-month period by a former Mafia member that had infiltrated the al Qaeda cell headed by Ramzi Yousef. Yousef was the mastermind behind the 1993 World Trade Center bombing and the planned simultaneous bombing of a dozen U.S. airliners departing Far East locations, and probably the most important hands-on al Qaeda terrorist. That terrorist source was probably the most important source of information on planned terrorist attacks that the U.S. has ever received relating to al Qaeda plans.
- The reason why Washington DOJ personnel withheld the information—thereby blocking preventative measures to be taken—was their scheme to fraudulently discredit that mole in several future murder trials. That mole was to give sworn testimony about the serial murders that his father, a Mafia capo known as “The Killing Machine,” perpetrated with the help of a key FBI supervisor in the New York City offices.
- The consequences of that scheme made possible several successful terrorist attacks that killed nearly 4,000 people, which was then followed by the U.S. invading Afghanistan and Iraq, two

countries that had either no role whatsoever in the attacks or less blame than those DOJ personnel.

- To cover up for this granddaddy of scandals related to the 9/11 terrorist attacks, 9/11 Commission members, controlled by key DOJ personnel, some of whom were directly involved in the prior cover-up scheme, falsified the published 9/11 Commission report by omitting any reference to these criminal acts. Obstruction of justice criminal statutes were violated, and the people and culture that made the greatest terrorist attacks in the nation's history were left in place.
- The key people that provided unprecedented information and evidence to me for several years included the mole in that al Qaeda cell, and a highly decorated Vietnam helicopter pilot and Lt. Colonel that was an FBI agent working with that FBI supervisor involved in the murders.
- In addition, I acquired over the years a great amount of information on criminal conduct by FBI-DOJ personnel. That which was related to terrorist attacks includes the downing of Pan American Flight 103. That information included FBI personnel (a) purchasing the alleged timer that exploded the bomb, and was planted miles from the accident scene six months after the bombing; (b) bribing the seller of that timer to testify falsely; (c) bribing a shopkeeper to falsely testify; (d) threatening other witnesses whose truthful testimony would have exposed the conduct by the FBI agents; (e) covering up for the actual bombers that resided in Syria so as to obtain Syria's cooperation in the first U.S. war against Iraq; and (f) charging an innocent Libyan with the bombing and deaths of 270 people. With that misconduct and culture the stage for subsequent terrorist bombings, including the withholding of information so as to protect a serial murderer in the FBI.
- Among the earlier attacks by FBI-DOJ personnel were the attacks upon me (and other present and former government agents) to silence my attempts to report the corruption that I discovered during my professional and official duties within the FAA, related to a series of aviation disasters.

The results of the misconduct that I and other government agents discovered and tried to expose for many years is a list of great American tragedies. Your continued cover-up of these matters insures that more terrorist successes will occur. Any further cavalier cover-ups continue to constitute criminal acts under such criminal statutes as Title 18 U.S.C. § 4.

Senator Joseph Lieberman
United States Senate
Washington, DC 20510

Ref: Insider comments on conditions insuring the success of the 9-11 hijackers, 40 years of prior fatal hijackings, and other areas of expected successful terrorism

To Senator Lieberman:

I am making a few comments concerning comments that you had made about concern over pre-September 11 conduct. I will add you to the many people in Congress that I had given information of misconduct in government that continued to inflict great harm upon national security.

Here is my credibility and my ability to make these statements. When I was a federal air safety inspector, I was requested by the government to take over and correct the program that was causing the worse series of air disasters in the nation's history. Prior to that time, I was an international airline pilot and during World War II I was the youngest Navy patrol plane commander during that war. I wrote books on the deadly politics of air safety, and I have acquired over the years several dozen sources in the FBI, DEA, Customs, and CIA, providing me with still other information relating to misconduct adversely affecting national security. I write about these matters in my books, *Unfriendly Skies*, *Defrauding America*, and *Drugging America*. I have appeared as guest and expert on over 3,000 radio and television shows since 1978.

Having said that, the following are highlights of the documented misconduct that insured the success of the 9-11 terrorist hijackers, 40 years of prior hijackings, and which will play key roles in future successful terrorist attacks:

- The documented hardcore misconduct within the FAA that had more to do with the success of the September 11 hijackers than any other intelligence shortcoming. To understand this area, you must have my documented evidence of deep-seated corruption within the FAA. I acted as an independent prosecutor in the FAA to bring into a four-month-long trial further evidence of this history of tragedy-related misconduct. I have the transcript and other records to show this culture, which is partly described in the third edition of *Unfriendly Skies*.
- The incompetent FAA administrator has said that the vague knowledge of impending terrorist attacks was not ample for the FAA to have taken actions to prevent the 9-11 hijackings. That is not so. The vague reports were sufficient to have ordered preventative measures that within 24 hours could have prevented the success of the four groups of terrorist hijackers.
- Pattern of hardcore documented corruption by the FBI that repeatedly aided and abetted terrorists, including for instance:
 - FBI filing false charges against a highly respected counter-terrorist expert who discovered suitcase nuclear devices and other nuclear material being smuggled from Russia through

Lithuania and sold to Middle East terrorists. This typical Justice Department retaliation destroyed the opportunity to discover how the nuclear devices were being stolen and destroyed the opportunity to discover what terrorist groups had already acquired them and where they might be located. Remember this when the suitcase nuclear bomb or bombs devastate U.S. cities!

- FBI filing false charges against the respected head of a government multi-agency drug task force that halted the group acting on the source of funds for the Jersey City terrorists who subsequently bombed the World Trade Center in 1993. If this group had not been halted, it is probable that the 1993 bombing of the World Trade Center could have been blocked and the activities of the group that eventually hijacked the four airliners could have been halted.
- FBI and CIA conduct during 1995, in Los Angeles, refusing to accept three dozen Stinger missiles from Afghan General Dostum, which was then followed by transfer of an unknown quantity of these missiles to Middle East terrorists. TWA Flight 800 was shot down by a missile from an unknown source about six months later. These missiles may yet shoot down U.S. airliners. Warning letters to prevent the transfer of these missiles were sent to 25 members of the House and Senate intelligence committees and each of them covered up for the FBI and CIA questionable conduct.
- Involvement of federal judges in a scheme blocking the reporting of criminal activities that aided and abetted the terrorists. A 20-year documented period of FBI and federal judges blocking former government agents from reporting corruption in government that insured the success of the 9-11 terrorists and other tragedies affecting the American people. I tried to report the corruption within the FAA and the FBI to a federal court under the federal crime reporting statute, Title 18 U.S.C. § 4.¹ These reports must be received by federal judges as part of their administrative (not judicial decision making) duties. Instead of receiving these reports, federal judges acted in unison with a CIA-front law firm and Justice Department prosecutors, misusing the federal courts to halt the reporting of criminal activities affected national security that I and several dozen other government agents sought to report. The \$10 million in assets that funded my exposure activities were corruptly taken from me, orders were rendered permanently barring me access to the federal courts, I was charged with criminal contempt of court for seeking to make these reports, and much more. All of these documented acts were part of the pre-September 11 corruption that insured the success of the terrorists and will insure the success of future terrorism—further insured by the cover-up of this information.
- Many other forms of FBI misconduct that for many people constitutes a greater threat to them than the terrorists.
- Many warning letters sent to members of Congress, the FBI, the White House, prior to September 11.
- March 1, 2001, letter to President Bush going into details of criminal activities in government “adversely affecting the internal security of the United States.” An April 9, 2001, certified letter to President Bush described the corruption within the FAA that was related to a series of airline crashes, including hijackings, the FBI misconduct that allowed “dozens of SAM missiles to be acquired by terrorist groups.”
- Why the prior tragedy-related endemic cover-ups made the 3,000 deaths possible and the expected continued cover-ups will continue the effect upon the people of the United States.

¹ Title 18 U.S.C. § 4. Misprision of felony. Whoever, having knowledge of the actual commission of a felony cognizable by a court of the United States, conceals and does not as soon as possible make known the same to some judge or other person in civil or military authority under the United States, shall be fined under this title or imprisoned not more than three years, or both.

- The role of certain print and broadcast media in covering up for these crimes and many others, and how such cover-ups made the 3,000 deaths possible.
- And much more of the same that is not addressed in this letter, in the books, or the Internet sites.

More information can be found in the books I wrote and at various Internet sites, including <http://www.unfriendliskies.com> and <http://www.defraudingamerica.com>.

There is much more to the corruption in our own government offices that continues to subvert national security, as discovered by me, a former federal agent, and my group of other government agents. We aren't even close to recognizing and addressing these matters.

May I have a response so that I know you have received this letter.

Sincerely,

Rodney Stich

Most Complete Insider's View of Why Terrorist Attacks Against U.S. Have Succeeded

Unpublicized Explosive Details

Rodney Stich, former federal air safety expert, international airline captain, Navy patrol plane commander, documents via two explosive books the specific acts by groups in the U.S. that make possible a continuing series of terrorist attacks against the U.S. The errors that allowed the attempted bombing of Northwest Flight 253 were more serious and deeply embedded problems that will allow more terrorist attacks to succeed—unless the public gets informed and outraged.

Evidence (not conspiracy theories) can be found at the Internet sites listed below, and in two 600-plus-pages books that includes, for instance:

- **The 9/11 hijackings:** the people and groups in the U.S. that were complicit in covering up areas of misconduct that enabled four groups of terrorists to so easily hijack four airliners.
- **TWA Flight 800:** Why it was downed, and the advance notice provided to FBI-DOJ personnel by a Mafiosi mole in the al Qaeda cell headed by the infamous Ramzi Yousef, the mastermind behind the 1993 World Trade Center bombing and the planned simultaneous downing of 12 U.S. airliners departing Far East locations.
- **PAA 103 Lockerbie downing:** Evidence widely published in Europe showing DOJ personnel planted evidence, paying for the planted evidence; paying for perjured testimony; threatening witnesses not to testify; and falsely causing an innocent person to be imprisoned, and much more.
- **U.S. embassies bombings in Africa:** Advance information provided to FBI-DOJ personnel, who then withheld the information that could have otherwise been used to prevent the attacks.
- **Why high-level DOJ cover-ups:** The cover-ups were motivated by a high-level DOJ scheme to falsely discredit the future testimony of the former Mafiosi mole in the key al Qaeda cell. He was to testify in several murder trials about the serial murders perpetrated by his father, known as “The Killing Machine,” with the help of a key FBI supervisor in the New York City offices. That scheme traded cover-up of the FBI scandal for what followed, including several terrorist attacks, nearly 4,000 direct deaths, two wars, and much more. Should you be outraged!!
- Details of the bizarre attacks upon a former government airline safety inspector who sought to expose the misconduct behind the above catastrophic events—and years of earlier tragedies.
- Combination of a culture of incompetence, indifference, and misconduct is rampant throughout the area of terrorist activities and many other issues adversely affecting Americans. This system will continue until enough Americans become informed and outraged.
