Senator Joseph Lieberman

United States Senate

Washington, DC 20510

Ref: Insider comments on conditions insuring the success of the 9-11 hijackers, 40 years of prior fatal hijackings, and other areas of expected successful terrorism

To Senator Lieberman:

I am making a few comments concerning comments that you had made about concern over pre-September 11 conduct. I will add you to the many people in Congress that I had given information of misconduct in government that continued to inflict great harm upon national security.

Here is my credibility and my ability to make these statements. When I was a federal air safety inspector, I was requested by the government to take over and correct the program that was causing the worse series of air disasters in the nation's history. Prior to that time, I was an international airline pilot and during World War II I was the youngest Navy patrol plane commander during that war. I wrote books on the deadly politics of air safety, and I have acquired over the years several dozen sources in the FBI, DEA, Customs, and CIA, providing me with still other information relating to misconduct adversely affecting national security. I write about these matters in my books, *Unfriendly Skies*, *Defrauding America*, and *Drugging America*. I have appeared as guest and expert on over 3,000 radio and television shows since 1978.

Having said that, the following are highlights of the documented misconduct that insured the success of the 9-11 terrorist hijackers, 40 years of prior hijackings, and which will play key roles in future successful terrorist attacks:

- The documented hardcore misconduct within the FAA that had more to do with the success of the September 11 hijackers than any other intelligence shortcoming. To understand this area, you must have my documented evidence of deep-seated corruption within the FAA. I acted as an independent prosecutor in the FAA to bring into a four-month-long trial further evidence of this history of tragedy-related misconduct. I have the transcript and other records to show this culture, which is partly described in the third edition of *Unfriendly Skies*.
- The incompetent FAA administrator has said that the vague knowledge of impending terrorist attacks was not ample for the FAA to have taken actions to prevent the 9-11 hijackings. That is not so. The vague reports were sufficient to have ordered preventative measures that within 24 hours could have prevented the success of the four groups of terrorist hijackers.
- Pattern of hardcore documented corruption by the FBI that repeatedly aided and abetted terrorists, including for instance:
 - FBI filing false charges against a highly respected counter-terrorist expert who discovered suitcase nuclear devices and other nuclear material being smuggled from Russia through

Lithuania and sold to Middle East terrorists. This typical Justice Department retaliation destroyed the opportunity to discover how the nuclear devices were being stolen and destroyed the opportunity to discover what terrorist groups had already acquired them and where they might be located. Remember this when the suitcase nuclear bomb or bombs devastate U.S. cities!

- FBI filing false charges against the respected head of a government multi-agency drug task force that halted the group acting on the source of funds for the Jersey City terrorists who subsequently bombed the World Trade Center in 1993. If this group had not been halted, it is probable that the 1993 bombing of the World Trade Center could have been blocked and the activities of the group that eventually hijacked the four airliners could have been halted.
- FBI and CIA conduct during 1995, in Los Angeles, refusing to accept three dozen Stinger missiles from Afghan General Dostum, which was then followed by transfer of an unknown quantity of these missiles to Middle East terrorists. TWA Flight 800 was shot down by a missile from an unknown source about six months later. These missiles may yet shoot down U.S. airliners. Warning letters to prevent the transfer of these missiles were sent to 25 members of the House and Senate intelligence committees and each of them covered up for the FBI and CIA questionable conduct.
- Involvement of federal judges in a scheme blocking the reporting of criminal activities that aided and abetted the terrorists. A 20-year documented period of FBI and federal judges blocking former government agents from reporting corruption in government that insured the success of the 9-11 terrorists and other tragedies affecting the American people. I tried to report the corruption within the FAA and the FBI to a federal court under the federal crime reporting statute, Title 18 U.S.C. § 4.¹ These reports must be received by federal judges as part of their administrative (not judicial decision making) duties. Instead of receiving these reports, federal judges acted in unison with a CIA-front law firm and Justice Department prosecutors, misusing the federal courts to halt the reporting of criminal activities affected national security that I and several dozen other government agents sought to report. The \$10 million in assets that funded my exposure activities were corruptly taken from me, orders were rendered permanently barring me access to the federal courts, I was charged with criminal contempt of court for seeking to make these reports, and much more. All of these documented acts were part of the pre-September 11 corruption that insured the success of the terrorists and will insure the success of future terrorism—further insured by the cover-up of this information.
- Many other forms of FBI misconduct that for many people constitutes a greater threat to them than the terrorists.
- Many warning letters sent to members of Congress, the FBI, the White House, prior to September 11.
- March 1, 2001, letter to President Bush going into details of criminal activities in government “adversely affecting the internal security of the United States.” An April 9, 2001, certified letter to President Bush described the corruption within the FAA that was related to a series of airline crashes, including hijackings, the FBI misconduct that allowed “dozens of SAM missiles to be acquired by terrorist groups.”
- Why the prior tragedy-related endemic cover-ups made the 3,000 deaths possible and the expected continued cover-ups will continue the effect upon the people of the United States.

¹ Title 18 U.S.C. § 4. Misprision of felony. Whoever, having knowledge of the actual commission of a felony cognizable by a court of the United States, conceals and does not as soon as possible make known the same to some judge or other person in civil or military authority under the United States, shall be fined under this title or imprisoned not more than three years, or both.

- The role of certain print and broadcast media in covering up for these crimes and many others, and how such cover-ups made the 3,000 deaths possible.
- And much more of the same that is not addressed in this letter, in the books, or the Internet sites.

More information can be found in the books I wrote and at various Internet sites, including <http://www.unfriendlyskies.com> and <http://www.defraudingamerica.com>.

There is much more to the corruption in our own government offices that continues to subvert national security, as discovered by me, a former federal agent, and my group of other government agents. We aren't even close to recognizing and addressing these matters.

May I have a response so that I know you have received this letter.

Sincerely,

Rodney Stich
