Ref: Illegal seizure of my mail and forwarding to unknown destination, apparently resulting from my attempts to expose corruption making possible the success of the initial al Qaeda attacks

To Melinda Haag,

I am bringing to your attention a federal offense that appear to have links to my efforts exposing corrupt conduct enabling the success of several of the initial al Qaeda attacks upon major U.S. targets.

The *immediate* issue I bring to your attention is the illegal theft of my mail by the postmaster of the Alamo, California post office, and forwarding it to unknown sources. The postmaster is apparently complying with illegal orders by a source in government. That theft of mail is associated with the my recent notifications to members of Congress¹ revealing the corrupt acts that had a major role in the success of those early al Qaeda attacks. I am a former federal agent who has been uncovering for several decades of corruption that resulted in great harm, deaths, and catastrophic events. The most recent discoveries relate to the corrupt acts that *directly* enabled the initial and worse al Qaeda attacks to succeed.

These allegations are based upon my personal discoveries; information provided to me by a former FBI agent; a former mole in a key al Qaeda cell, and other sources. Briefly, here are the facts, starting with the lesser offense of theft of my incoming mail by government personnel:

- Upon checking my mail at Post Office box 4, Alamo, California, prior to departing for Honolulu on June 14, 2013, I discovered that a plate was placed over the box, preventing mail being placed in it. My prior mail from my many confidants was missing. Upon my return to California, I contacted the postmaster, Anne Marie McClure, on June 24, 2013, seeking information on the matter. Her responses were evasive as she sought to cover up for what occurred. She did admit that my mail was being diverted from my POB to a location that she would not disclose.
- The illegal seizure of mail by the United States Postal Service is a major offense. But making it far more serious is the *reason* for seizing the mail. After years of uncovering and seeking to expose conduct constituting federal crimes against the United States that resulted in serious and often catastrophic events, I became privy to corruption that enabled the first series of major al Qaeda attacks to occur—including the hijackings of U.S. airliners.
- Among my many confidants was a mole in the al Qaeda cell headed by al Qaeda operative, Ramzi Yousef. That mole was a former Mafiosi in New York City. He was obtaining advance information on planned terrorist attacks from that key al Qaeda member. That mole, and his New York City attorney, provided ultra-valuable information to FBI agents in the New York City offices concerning

the planned attacks as the information was received directly from Yousef. Those planned attacks including hijackings U.S. airliners.

- Local FBI agents in the New York City offices considered the unprecedented source of information of great value. They even set up a fictitious Mafia corporation through which Ramzi Yousef made numerous phone calls to al Qaeda operatives in the United States and overseas.
- Despite the value of that information, high-level employees in the U.S. Department of Justice at Washington deep-sixth the critical information. That conduct prevented multiple government agencies from taking action to prevent the success of those attacks.
- The *reason* for deep-sixing the information was the scheme by these same Department of Justice officials. They had planned to falsely discredit the testimony that mole was scheduled to present in several criminal trials. He would be testifying about the murders that his Mafia capo father committed with the help of a key FBI supervisor. The scheme was to protect that key FBI supervisor by falsely discrediting the mole. The scheme would fail if the mole's efforts in seeking to protect the United States from the terrorist attacks had been revealed. The solution? Withhold the valuable information on the planned attacks that the mole and his attorney was providing to FBI agents.
- Approximately 4,000 people died in those forewarned terrorist attacks, including the 9/11 hijackings. Tens of thousands more died in the two wars that was motivated by the 9/11 hijackings. These deaths, and the nation's worst series of easily preventable terrorist attacks in its history, were made possible by the corrupt acts of those key personnel in the U.S. Department of Justice.
- More corrupt cover-ups followed, including the withholding of this information by DOJ personnel involved in the 9/11 Commission, and elsewhere.
- The above events are just a starter on the corruption and grave national consequences that I and my large number of former government agents and insiders have discovered during the past 40 years.
- Every attempt to report and halt the corruption in covert and overt government operations encountered cover-ups and harmful retaliation by Department of Justice personnel. Some of it came from personnel in your office prior to your arrival. The years of criminal attacks upon me inflicted great and irreparable personal and financial harm, solely to cover up for harm-resulting crimes against the United States and its people. Federal prosecutors even charged me with criminal contempt of court for filing a federal action under the federal crime reporting statute, Title 18 U.S.C. § 4.² I sought to carry out my responsibility by reporting and seeking to halt criminal conduct that had already played major enabling roles in a series of deadly aviation disasters, and ended up being severely harmed. (Details in the book, *History of Aviation Disasters: 1950 to 9/11.*)
- The years of heavily documented retaliation by Department of Justice personnel against me, a former federal agent, seeking to report ongoing corruption involving key government personnel, already responsible for a series of catastrophic aviation events, made possible the misconduct that enabled the easily preventable terrorist successes. These tactics and consequences will continue to occur until this culture is adequately addressed. Based on the number of people involved, that is doubtful.
- Details of these matters can be found at www.defraudingamerica.com, along with information on my background and credibility. Seeking to circumvent the deep-seated culture of cover-ups, I also wrote

other *not-for-profit* books seeking to inform and motivate the public to react to what was being done to them by powerful forces in the U.S. government. These other books include, for instance, *Crimes of the FBI-DOJ, Mafia, and al Qaeda; Terrorism and the Deadliest Enabling Scandals of the 21st Century; Defrauding America; America's Corrupt War on Drugs*; and others. (Available at amazon.com.)

As a start, you should address the illegal theft of my mail—apparently associated with the cover-up of the deadly deep-sixing conduct—and then address the issues involving key people in government that constitute as great a threat to the nation as *external* terrorists.

Sincerely,

Rodney Stich
